Raymarine®

GLASS BRIDGE DISPLAYS

FEATURES

- High resolution LCD displays with Ultra Bright sunlight visibility
 - 15" Display native resolution XGA, 1024 x 768
 - 17" Display native resolution SXGA, 1280 x 1024
- LED backlighting for optimal viewing, excellent thermal management and low power consumption
- Night mode dims to red for superb low-light viewing
- 9 video inputs (3 VGA, 2 DVI, 3 Composite, 1 S-Video)
- 3-stage Picture-In-Picture mode for simultaneous viewing of multiple video sources
- Remote controllable from the G-Series Command Center Keyboard

Raymarine Glass Bridge Marine Monitors offer a premium display solution for luxury cruising and sport fishing vessels. Their sleek, stylish design blends seamlessly with the premium look of today's luxury vessels. The black glass fascia can be flush mounted into the vessels helm or dashboard with no protruding bezel, buttons or knobs.

Designed for Raymarine's G-Series Navigation system, the monitors are equally suitable as displays for PC navigation systems, computers, entertainment components, vessel security and monitoring systems, night vision cameras and more.

The displays feature Raymarine's Ultra Bright sunlight viewable display technology. The monitor's glass fascia is bonded to its LCD panel to eliminate condensation, minimize glare, and provide a superior viewing experience.
